Canvas, the packet and where the lesson is going

Canvas is changing to help you keep track of where to work in your packet. Each Start Here page now names the packet page and the slide for every step, and the slide map jumps straight to the slide that matches your page. The county is rolling out new technology practices this year and expects every class to use them. Start Here pages, practice quizzes with feedback and your iPad are how this class meets those requirements.

Speaking up without calling attention to yourself

Do not write anyone's name in this section. If you want to report something, share an idea or give me feedback without anyone noticing, you have three ways: write it on a slip of paper and leave it with the lab assistant in 7th period, talk with me privately, or email me. Every message gets read.
